

QBIC CLASSIQUE

Qbic Classique offers an elegant and simple wine rack in Scandinavian design.

The winerack-series is produced from the beautiful wood type of red alder, which is a relatively hard and oily wood that is resistant to the cool/humid climate conditions found in every wine cellar. The wood's greatest charm is the beautiful, slightly reddish color and the fine grain markings, which help to give the Qbic wine racks their minimalistic appearance. The properties of the wood also mean that the modules has no need for surface treatment or other kinds of wood protection, thereby also avoiding any risk of unwanted odors from chemical additives.

The wine racks are available in a large selection with different functions and sizes, and are suitable for "do-it-yourself cellars". The modules are delivered "flat packed" with detailed assembly instructions, screws and dowels, and are extremely easy to assemble and install.

These beautifully designed wine racks combine classic aesthetics with modern innovation to create the perfect storage solution for your wines. Whether you are a passionate collector or just want to present your wines in style, Qbic Classique wine racks will add a touch of luxury to your home or business.
